What happened in Denver County in August 2026

In August 2026, the median asking price for homes listed in Denver County was \$529,999, down 8.6% from a year earlier.

Buyers had 3,323 homes to choose from during the month (-0.4% year over year), with 1,056 newly listed (+11.4%). The typical listing spent 60 days on the market, and 31.5% of active listings had a price reduction.

On the sales side, the most recent closed-sales data (May 2026) shows a median sale price of \$628,750 (+5.0% year over year), 988 homes sold, and sellers receiving an average of 99.0% of their asking price, with 25% of sales closing above list.

Nationally, the average 30-year fixed mortgage rate was 6.66% in the latest weekly survey, compared with 6.56% a year earlier.

What this means if you are thinking about a move. Every neighborhood and price band behaves a little differently from the market-wide numbers above. If you are wondering what these trends mean for your home or your search, reply to this email and I will run the numbers for your situation.

Denver County by price band (August 2026)

The market-wide numbers hide a lot. Here the 26 Denver County ZIP codes with at least 20 active listings are ranked by median listing price and split into thirds, so you can see how the top, middle and bottom of the market are moving. Typical asking price is the median of the ZIP medians in each band; days on market and price-cut share are weighted by active listings.

High end
